Supermarket
France

Simply Market Parly 2

Challenges

- Need for flexibility and frequent changes of the store layout
- Technical constraints related to the activities of another store and a car park under the supermarket

The opening of the Simply Market Gourmand in the Parly 2 shopping center, Le Chesnay, France, is part of the center evolution towards service excellence for its 13 million visitors annually.

The food area in Parly 2 was redesigned completely together with the Simply Market to develop a comprehensive service offer as well as a high-quality and tailor-made customer experience. The store was remodeled and expanded in less than 3 months thanks to the Evac solution.

Construction management:

BEG Ingénierie SA

Design office (fluids):

Cooling System Assistance SAS

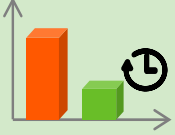

Evac system installer:

CIC Réfrigération SAS

Benefits

- Less expensive remodeling
- Reduced initial installation costs especially with the constraints of the basement

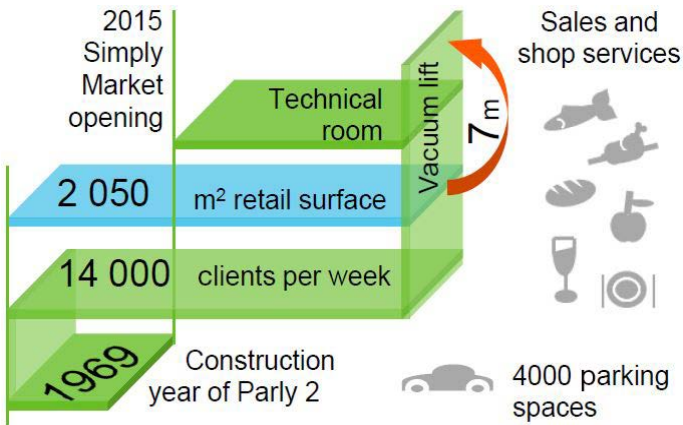

- Quicker installation, commissioning and remodeling

- Gravity drainage not possible because the level below belongs to another store
- Changes of the store layout with no constraints on cold furniture

Delivery scope

- 20 Evac buffer boxes for cold displays
- 4 Evac interface units for dish-washing areas
- 4 Evac differential valves for cold rooms
- 7 Evac floor drains
- 1 Evac N°10-HQE-105-R1 vacuum collecting unit

Evac solutions for supermarkets

Make supermarkets more profitable with Evac vacuum drainage for condensate.

Evac vacuum drainage for condensate offers a cost-effective, simple, and flexible alternative for supermarket and warehouse remodeling, building conversion, or relocation. Relocation might be to a city center or even an underground location – vacuum drainage opens up many possibilities that would have previously been either too complicated or too costly. Planning and construction times are short, with local skilled support and reliable customer service for the lifetime of your products.

We are the original supplier for vacuum drainage and are trusted worldwide – with 1,500 supermarket installations and remodeling references to our name. With this level of freedom and flexibility, brand strategy and marketing initiatives that require store layout changes are both easier and less costly to implement.
